Info about the Hahnemühle Certificate of Authenticity with Hologram Seal

The Hahnemühle Certificate of Authenticity is designed for artists and photographers who want to guarantee the authenticity of their limited edition artwork and prevent the risk of forgery.

Each certificate consists of a high quality handmade paper with Hahnemühle watermark and fluorescent security fibres, which is provided with a consecutively numbered hologram. A second, identically numbered hologram can be affixed directly to the reverse of the artwork.

This combination of certificate and hologram guarantees that each certificate of authenticity refers only to a specific work of art.

In addition, each work is recorded in a book and registered online.

Special Sizes

In addition to the dimensions given here, special dimensions are possible for the editions.
